The Advanced Medical Technology Institute At Beth Israel Medical Center Presents the

Laparoscopic Bariatric Preceptorship

James "Butch" Rosser, Jr., MD, FACS
The Advanced Medical Technology Institute
Beth Israel Medical Center
New York, New York

Upcoming Dates

Feb 13 – Mar 3, 2006

Nov 13 – Dec 1, 2006

Preceptorship – A period of practical experience and training for a student, especially of medicine or nursing, that is supervised by an expert or specialist in a particular field.

Dr. James “Butch” Rosser’s six-week mini-fellowship has been established as one of the premiere advanced laparoscopic skill development program, training dozens of surgeons over the past five years.* As a result of the increased demand for bariatric surgery instruction, we have tailored a special three-week program to enhance laparoscopic skill and teach laparoscopic bariatric procedures.

*Day to day content and additional information available upon request.

“Intense, structured education that will build the skills and tactics necessary to move into the minimally invasive bariatric arena effectively.”
